Performance Without Compromise®

MANHATTAN ROOM PACKAGE

www.ergonomic-products.com

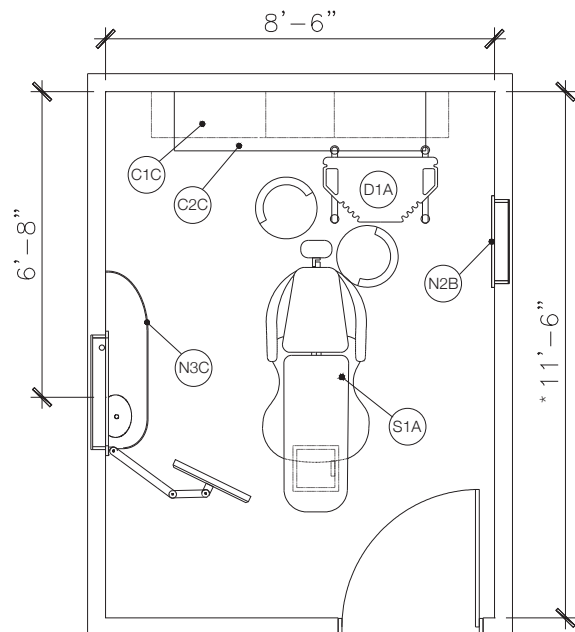

Peak Productivity and Comfort in a Private Room

Present patients with a clean, welcoming look upon entry to the operatory – without sacrificing Productivity and Efficiency.

- High-performance, multi-tiered delivery platform
- Inwall digital presentation
- Instant Left/right convertibility option
- Extensive production & storage space
- Advanced clinical & general lighting solutions
- The most feature-rich patient chair on the market

*If using the Traverse option on the 3-Series patient chair, total room length can be reduced to 11'.

(L1A1 Lighting System and R1A1 Rapid Cart not shown)

Performance without Compromise.®

Our treatment room solutions are unmatched, combining **the most efficient delivery, flexibility, space efficiency and enhanced work-flows in the industry.** The promise at the heart of all our equipment packages – **Any Procedure, Any Room, Any Time** – has enabled our clients to consistently achieve production-per-hour levels that are two to three times the national average.

The Manhattan Cabinet creates a high performance treatment room with a stylish, welcoming look geared to the patient perspective. Especially suited to single-entry/toe-entry rooms, the Manhattan is the centerpiece of an ideal surgical or sedation suite. When paired with our single-tiered Universal Workstation, the hydraulic cabinetry of the Manhattan Cabinet delivers the same consolidated range of motion as our standard Universal Workstation in an aesthetically pleasing equipment package.
